Key specialized courses: Software Engineering, Data Structures, Operating Systems, and Program Design

---

SKILLS

Programming:	HTML, CSS, JavaScript, Python, Swift/SwiftUI, C/C++
Technologies/Frameworks:	React, Node.js, Express.js, JQuery, Bootstrap, Django, REST, AWS, Microsoft Windows, MacOS, iOS, Ubuntu
Developer Tools:	WordPress, Figma, Bubble.io, Git, Firebase, Xcode, PostgreSQL, MySQL, SQL, SQLite, Dreamweaver, VSCode, Adobe Acrobat, Photoshop, Illustrator, Word, PowerPoint, Excel
Work Experience:	JIRA/Agile, Customer Service

KEY PROJECTS

Florida Land Brothers LLC | WordPress, SiteOrigin, CSS | https://floridalandbrothers.com/   *July 2025*
- Built a responsive, SEO-friendly **WordPress** site for a Florida real estate business using **SiteOrigin**, tailored to showcase property information and capture leads.
- Enhanced user experience through streamlined navigation and integrated contact forms for seamless client inquiries.

Shine to Drive | HTML, CSS, JavaScript | https://shinetodrive.net/   *May 2025*
- Developed a responsive, client-tailored website for a car detailing business using **HTML**, **CSS**, and **JavaScript**, ensuring alignment with the client's branding and service needs.
- Enhanced user experience by implementing interactive features and smooth navigation, increasing customer engagement and facilitating online service bookings.

YouTube For Dog Related Videos | React, HTML, CSS   *April 2024*
- Created a web app using **React** that displays a YouTube clone of only dog related videos with the use of Google API to fetch YouTube's data.
- Users navigate through home feed, search, and have the option to watch videos based on what they choose.

RELATED WORK EXPERIENCE

The Brand Executives | Dallas, TX (Remote)   *March 2024 – May 2025*
Web Developer Intern
- Collaborated remotely to complete weekly **Figma/Bubble.io** and **WordPress** tasks while obtaining skills used in real-world scenarios.
- Built real-world skills to enhance workflow efficiency and adaptability for diverse web development projects.

theCoderSchool | Tampa, FL   *March 2023 – Aug 2023*
Coding Coach
- Guided children (ages 7-15) in coding Lua for personalized projects in Roblox.
- Introduced younger students to structured programming fundamentals using Scratch, a visual block-based language.
